## Applicant Response to Standards of Review

1. Does the property have physical characteristics, such as narrowness, shallowness, irregular shape, topography, or natural features that inhibit compliance with the zoning ordinance (attach additional sheets if needed)?

---

---

---

2. If answered yes to #1 above, is (are) the physical characteristics) unique and not shared by neighboring properties?

---

---

---

3. Was the alleged practical difficulty (dimensional variance) or hardship (use variance) created by an action of the applicant or previous property owner?

---

---

---

4. Can the property be reasonably used for the use permitted in the zoning district without granting the variance?

---

---

---

5. Is the variance the minimum necessary to permit reasonable use of the land and buildings, or would a lesser variance provide substantial justice to the applicant as well as other property owners in the area?

---

---

---

6. If granted, explained how the variance would not result in adverse affects on adjacent properties or alter the character of the area?

---

---

---

7. If granted, explain how the variance would not result in hazards such as dangers from fire or flood, or increased traffic congestion. That is, how will the public safety and welfare be observed and secured?

---

---

---

8. If granted, explain how the variance would not be contrary to the spirit and intent of the zoning ordinance.
