**Free for Township residents.

Gaines Township Zoning Approval Process

Step 1 - Applying

Application materials may be picked up at the Planning Department window or online at the Gaines Charter Township (GCT) website www.gainestownship.org. The “Application for Zoning Approval” will be sufficient for most applications. However, if your item is multi-faceted or complex, we encourage applicants to write a letter of intent, clearly stating and describing their request. Please confer with planning staff to determine if supplemental documents are required such as: formal site plans, property owner signatures, professional surveys, questionnaire responses, et al.

Step 2 – Submission

Submit your completed application to the Planning Department. The application will receive a date stamp and file number for tracking within the Township. A fee may be associated with your submission. The fee chart is on the opposite side of this document, or available on the GCT website and at the Planner’s window in the Township office. You may contact staff at 616 698-6640 ext. 120 if you have any further questions.

Step 3 – Review

Administrative reviews will be completed within five business days of receipt. If a hearing is necessary, the applicant will be informed whether the request will be heard by the Zoning Board of Appeals or the Planning Commission. The “Meeting Schedule and Application Deadlines” documents may be found at the GCT website in the Meeting Agendas and Minutes / Meeting Schedules section. Your request will be heard at the first meeting following the closest deadline date.

Step 4 – Decision

Upon receiving your completed application, a decision will be made either approving or denying the application. If your application is approved, you have presented sufficient information for Zoning or approval by the Planning Commission. This may or may not be your last step. **Any proposed project including, but not limited to the construction of, addition to, or alteration of buildings, the installation of signs, any electrical wiring or mechanical work must be brought to the Gaines Charter Township Building Department for permitting before construction can begin.**

You will be contacted by the Township Planner if your application did not contain all of the information needed for a decision.

Thank you for investing in Gaines Charter Township. It is the Township’s mission to treat every proposal fairly and without bias.

If you have questions or concerns, please contact the Planning Department at 616-698-6640 or by e-mail at dan.wells@gainestownship.org.
